

Date of issue : 01.02.2015
Version: AK15-00
Product Name: True FLEX
EU Directive 1907/2006

1. Identification of the substance/preparation and of the company/undertaking

1.1 Trade name: True FLEX
1.2 Use of the product: 3D Printing Filament
1.3 Supplier: OOKUMA Additive Manufacturing Technologies and Materials, Inc.
Atatürk Oto San. Sit. 2. Kısım 5. Sok. No:113
Maslak İST.
Phone: 0090 850 811 6781
Fax : 0090 850 811 6781
Emergency phone number: 0090 850 811 6781

2. Hazards identification

2.1 Classification: Not dangerous according to Directive 2006/121/EC or 1999/45/EC
2.2 Special advice on hazards: Danger of burns in contact with hot polymer. Burning produces obnoxious and toxic fumes. Avoid formation of dust and aerosols.

3. Composition / information on ingredients

3.1 Chemical characteristics: Thermoplastic Elastomer
3.2 CAS no: TPE : 109-99-9
3.3 Additional information: no harmful ingredients

4. First-aid measures

4.1 On skin contact: In case of contact with molten polymer rinse immediately with plenty of water for at least 15 minutes. If skin irritation persists, call a physician.
4.2 After inhalation: After inhalation of decomposition gases or dust Move to fresh air. Call a physician immediately.
4.3 On ingestion: No effects known. Drink water as a precaution. Never give anything by mouth to an unconscious person. Do not induce vomiting without medical advice. Call a physician immediately.
4.4 On eyes contact: Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Call a physician immediately.

5. Fire-fighting measures

5.1 Suitable fire extinguishing media: Foam. Water. Carbon dioxide (CO2). Dry chemical. Alcohol resistant foams are preferred if available. General-purpose synthetic foams (including AFFF) or protein foams may function, but much less effectively
5.2 Special exposure hazards: During incomplete combustion release of carbon monoxide, carbon dioxide, oxides of nitrogen and traces of hydrogen cyanide.
5.3 Special protective equipment: As in any fire, wear self-contained breathing apparatus pressure-demand and full protective gear.
5.4 Remark: Fine dust dispersed in air may ignite. Risks of ignition followed by flame propagation or secondary explosions shall be prevented by avoiding accumulation of dust, e.g. on floors and ledges.

The Information Herein Is Given In Good Faith, But No Warranty, Express Or Implied, Is Made. Consult the Company for Further Information.

NOTICE REGARDING MEDICAL APPLICATION RESTRICTIONS: The company does not recommend any of its products, including samples, for use: (A) in any application which is intended for any internal contact with human body fluids or body tissues (B) as a critical component in any medical device that supports or sustains human life; and (C) specifically pregnant women or in any applications designed specifically to promote or interfere with human reproduction.

Date of issue : 01.02.2015
Version: AK15-00
Product Name: True FLEX
EU Directive 1907/2006

6. Accidental release measures

- 6.1 Personal precautions: Use suitable protective clothing. Avoid eye contact and inhalation of dusts. Keep ignition sources away.
- 6.2 Methods for cleaning up: Shovel into suitable container for disposal. Avoid ingress of material into drainage systems.

7. Handling and storage

- 7.1 Handling: Avoid contact with molten polymer with skin and eyes. Avoid dust formation. Low hazard for usual industrial or commercial handling. Use personal protective equipment
- 7.2 Storage: Store in cool place. Keep at temperatures below 40 °C. No special restrictions on storage with other products. Protect against moisture.

8. Exposure controls/ personal protection

- 8.1 Technical safety measures: With suitable ventilation the threshold limits assumably will not be reached. Avoid electrostatic charge by use of grounding cables.
- 8.2 Personal safety equipment: Use adequate safety equipment as protective clothing, eye protection glasses with side-shields, heat protection gloves.
In case of dust formation wear mask with particle filter.
- 8.3 Work hygiene: No eating or drinking during working.
Avoid contact of hot material with the skin.
Avoid breathing dust and vapours.

9. Physical and chemical properties

- 9.1 Form: Filaments
- 9.2 Color: Pigmented
- 9.3 Odor: Almost odorless
- 9.4 Melting range: Not Determined
- 9.5 Oxidising properties: not self igniting / not flammable
- 9.6 Explosions limits: not applicable
- 9.7 Density: 1.2 g/cm³
- 9.8 Solubility in water: Practically insoluble

10. Stability and reactivity

- 10.1 Stability: Stable under recommended storage conditions
- 10.2 Conditions to be avoided: Avoid exposure to extreme heat and all sources of ignition. Thermal decomposition > 230°C.
- 10.3 Hazardous decomposition products: Smouldering or incomplete combustion leads to the formation of toxic gas mixtures consisting mainly of CO, CO₂ and nitrogen oxides

The Information Herein Is Given In Good Faith, But No Warranty, Express Or Implied, Is Made. Consult the Company for Further Information.

EU Directive 1907/2006

11. Toxicological information

- 11.1 Local irritation: Small quantities of isocyanates may be released when drums are opened for the first time and when the product is exposed to elevated temperatures (e.g. during drying or processing). It is primarily a matter of diisopropylphenyl isocyanate. Exceeding the recommended processing temperatures leads to a significant increase in the amount of isocyanate vapor generated. Over-exposure entails a risk of concentration-dependent inhalatory irritation and/or sensitization by isocyanates (delayed appearance of difficult breathing, coughing, asthma is possible). Hypersensitive persons may suffer from these effects even at low isocyanate concentrations.
- 11.2 Other remarks: Based on our state of knowledge and experience no injurious health effects are expected if product is properly handled for the designated use.

12. Ecological information

- 12.1 Ecotoxicological effects: No data available
- 12.2 Biological degradation: Not readily biodegradable.
- 12.3 Bioaccumulation: Does not bioaccumulate.

13. Disposal considerations

- 13.1 Waste from residues / unused products : In accordance with local and national regulations. Do not contaminate ponds, waterways or ditches with chemical or used container. Contact manufacturer.
- 13.2 Uncleaned packaging: Packaging material has to be emptied completely and disposed in accordance with the regulations.

14. Transport information

- 14.1 Transport regulations: Not classified as hazardous under transport regulations
ADR, ADNR, RID, ICAO/IATA, IMDG/GGVSee, ICAO/IATA

15. Regulatory information

- 15.1 EU regulations: This product does not require a hazard warning label in accordance with EC Directives.

16. Other information

Oo-kuma urges each customer or recipient of this (M)SDS to study it carefully and consult appropriate expertise, as necessary or appropriate, to become aware of and understand the data contained in this (M)SDS and any hazards associated with the product. The information herein is provided in good faith and believed to be accurate as of the effective date shown above. However, no warranty, express or implied, is given. Regulatory requirements are subject to change and may differ between various locations. It is the buyer's/user's responsibility to ensure that his activities comply with all federal, state, provincial or local laws. The information presented here pertains only to the product as shipped. Since conditions for use of the product are not under the control of the manufacturer, it is the buyer's/user's duty to determine the conditions necessary for the safe use of this product. Due to the proliferation of sources for information such as manufacturer-specific (M)SDSs, we are not and cannot be responsible for (M)SDSs obtained from any source other than ourselves. If you have obtained an (M)SDS from another source or if you are not sure that the (M)SDS you have is current, please contact us for the most current version.
